## About This Game

Command the last of the Libra class carriers and avenge the fall of your home world in this space real time strategy game.

Build a variety of crafts, conquer planets and space stations and travel the universe. You will face a single player campaign filled with exciting battles depicted with unique art style. Upgrade your ships between missions and combine them into unstoppable fleets.

Survival of your race depends on your actions Commander!

Blue Libra uses a path-drawing style of giving orders to fleets, allowing for better planning and management. Game has been warmly welcomed by iPhone players, but given that game mechanics work very well on stationary computers it has found its way to the more hardcore players as well.

Game mechanics are simple, but very fun.
